

Invitation to the 3rd CompNet Data Provider Forum

When: 22 April 2020

Where: Falkensteiner Hotel Bratislava

CompNet is delighted to invite a representative of each data provider to the 3rd Data Provider Forum. The data provider forum takes place in Bratislava, on the 22nd April 2020 jointly with the CompNet/NBS “Conference on Sustainable development, firm performance and competitiveness policies in small open economies” (23th - 24th April).

During the forum, we will discuss questions and problems that occurred during the last data collection round and we offer a platform to exchange experiences and good practices among data providers and data users. In addition, we aim at discussing the implementation of different indicators for the next vintage and answer your questions. We would like to ask all data providers to send us questions by the 10th April 2020.

We ask to confirm the participation of your institution (and the name of the attendee) at the latest by the 10h of March 2020.

Data providers are kindly invited to attend our conference on sustainable development, firm performance and competitiveness policies in small open economies (see the program [here](#) and the registration form [here](#)).
