

CAED 2020 — Call for Papers

The Tinbergen Institute and the graduate program in Business Data Science are proud to host:

Comparative Analysis of Enterprise Data

Conference Dates: August 27-29, 2020

Location: Erasmus University Rotterdam, the Netherlands

Keynote Speakers: John Van Reenen (MIT); tba

CAED invites submissions of paper proposals for its 16th conference on research using enterprise microdata to be held at Erasmus University, Rotterdam, the Netherlands. The conference promotes scientific research using enterprise microdata on a variety of topics and from different (and inter) disciplinary approaches. The conference is a unique meeting point for producers and users of these data, including statisticians, survey methodologists, data scientists, economists and econometricians, business researchers and other social scientists. It is also an opportunity for policymakers to acquaint themselves with the newest research results and policy evidence and evaluation in this rapidly expanding field.

Submit: Either a full paper with an abstract of 400-600 words or an extended abstract of 800-1600 words, including sufficient description of the data used in the analysis and key results. Include title, authors, affiliations, and the email address of the corresponding author.

Submission URL: <http://editorialexpress.com/conference/CAED2020>

Deadline for paper submission: April 10, 2020

Authors chosen to present papers at this conference will be notified in May.

Conference Information: <https://www.tinbergen.nl/conferences/CAED2020>

Conference Fee: 100 Euro. Fee is waived for speakers (1 per accepted paper) and PhD students.

Keynote Speakers: John Van Reenen (MIT); tba
